Yadav, A. 143

## Subject Index

- Africa, copper, zinc, selenium, food, daily intake, 49
- Age, lead, teeth, dentine, gasoline, 135
- Agra city, climatic conditions, socio-economic status, relative costs, solid waste characteristics and management, 143
- Ambient aerosols, residence time, sulfate aerosols, 25
- Analysis, dust, lead, cadmium, 205
- Asbestos, respirable dust, quartz, calcite, IR-spectroscopy, scanning electron microscopy, 33
- Assessment, consumer, exposure, hazard, model, 155
- Atomic absorption spectrometry, toxic metals, respirable dust, welder mist, 93
- Atrozine, biodegradation, hydrodynamic parameters, microbial distribution, pentachlorophenol, unsaturated soil, 121
- Biodegradation, atrocine, hydrodynamic parameters, microbial distribution, pentachlorophenol, unsaturated soil, 121
- Blood lead levels, petrol lead levels, 43
- Bovine, cattle, meat, toxic metals, trace metals, 177
- Cadmium, dust, analysis, lead, 205
- Caesium, Chernobyl, modelling, soil, strontium, 251
- Caesium, ingestion, milk, sheep, soil, 243
- Calcite, respirable dust, asbestos, quartz, IR-spectroscopy, scanning electron microscopy, 33
- Carbon budget, detergent, oxygen demand, environmental stress, productivity, 301
- Cattle, bovine, meat, toxic metals, trace metals, 177
- Chernobyl, caesium, modelling, soil, strontium, 251
- Chernobyl, radiocaesium, coniferous forest canopy, needle fall, Green Spruce Aphid, 259
- Climatic conditions, socio-economic status, relative costs, solid waste characteristics and management, Agra city, 143
- Coniferous forest canopy, Chernobyl, radiocaesium, needle fall, Green Spruce Aphid, 259
- Consumer, exposure, hazard, assessment, model, 155
- Copper, zinc, selenium, food, daily intake, Africa, 49
- Cycling, forest ecosystems, radiocaesium, potassium, 77
- Daily intake, copper, zinc, selenium, food, Africa, 49
- Dental amalgam fillings, urinary mercury, fish eating habits, school children, multiple regression analysis, 213
- Dentine, lead, teeth, age, gasoline, 135
- Detergent, carbon budget, oxygen demand, environmental stress, productivity, 301
- Dust, analysis, lead, cadmium, 205
- Effluent water, sister chromatid exchange, hepatocytes, 111
- Environmental stress, detergent, carbon budget, oxygen demand, productivity, 301
- Exposure, consumer, hazard, assessment, model, 155
- Fish eating habits, urinary mercury, dental amalgam fillings, school children, multiple regression analysis, 213
- Food, copper, zinc, selenium, daily intake, Africa, 49
- Forest ecosystems, radiocaesium, potassium, cycling, 77
- Gasoline, lead, teeth, dentine, age, 135
- GC-AED, organotin, speciation analysis, GG-AAS, harbour water, 279
- GG-AAS, organotin, speciation analysis, GC-AED, harbour water, 279
- Green Spruce Aphid, Chernobyl, radiocaesium, coniferous forest canopy, needle fall, 259
- Harbour water, organotin, speciation analysis, GG-AAS, GC-AED, 279
- Hazard, consumer, exposure, assessment, model, 155

- Hepatocytes, sister chromatid exchange, effluent water, 111
- Hydrodynamic parameters, atrozine, biodegradation, microbial distribution, pentachlorophenol, unsaturated soil, 121
- Ingestion, caesium, milk, sheep, soil, 243
- IR-spectroscopy, respirable dust, asbestos, quartz, calcite, scanning electron microscopy, 33
- Lead, dust, analysis, cadmium, 205
- Lead, teeth, dentine, age, gasoline, 135
- Mainstream cigarette smoke, polycyclic aromatic hydrocarbons, sidestream cigarette smoke, 101
- Meat, cattle, bovine, toxic metals, trace metals, 177
- Meat, swine, toxic metals, trace metals, 193
- Metal speciation, Yamuna sediments, sediment characteristics, seasonal variations, sequential extraction, 229
- Microbial distribution, atrozine, biodegradation, hydrodynamic parameters, pentachlorophenol, unsaturated soil, 121
- Milk, caesium, ingestion, sheep, soil, 243
- Model, consumer, exposure, hazard, assessment, 155
- Modelling, caesium, Chernobyl, soil, strontium, 251
- Multiple regression analysis, urinary mercury, dental amalgam fillings, fish eating habits, school children, 213
- Needle fall, Chernobyl, radiocaesium, coniferous forest canopy, Green Spruce Aphid, 259
- Organotin, speciation analysis, GG-AAS, GC-AED, harbour water, 279
- Oxygen demand, detergent, carbon budget, environmental stress, productivity, 301
- Pentachlorophenol, atrozine, biodegradation, hydrodynamic parameters, microbial distribution, unsaturated soil, 121
- Petrol lead levels, blood lead levels, 43
- Polycyclic aromatic hydrocarbons, mainstream cigarette smoke, sidestream cigarette smoke, 101
- Potassium, forest ecosystems, radiocaesium, cycling, 77
- Productivity, detergent, carbon budget, oxygen demand, environmental stress, 301
- Quartz, respirable dust, asbestos, calcite, IR-spectroscopy, scanning electron microscopy, 33
- Radiocaesium, Chernobyl, coniferous forest canopy, needle fall, Green Spruce Aphid, 259
- Radiocaesium, transfer coefficient, sheep, transport model, 1
- Radiocaesium contamination, soil ingestion, trace element transport, sheep milk, transfer coefficient, 13
- Radiocaesium, forest ecosystems, potassium, cycling, 77
- Relative costs, climatic conditions, socio-economic status, solid waste characteristics and management, Agra city, 143
- Residence time, sulfate aerosols, ambient aerosols, 25
- Respirable dust, asbestos, quartz, calcite, IR-spectroscopy, scanning electron microscopy, 33
- Respirable dust, toxic metals, welder mist, atomic absorption spectrometry, 93
- Scanning electron microscopy, respirable dust, asbestos, quartz, calcite, IR-spectroscopy, 33
- School children, urinary mercury, dental amalgam fillings, fish eating habits, multiple regression analysis, 213
- Seasonal variations, Yamuna sediments, sediment characteristics, metal speciation, sequential extraction, 229
- Sediment characteristics, Yamuna sediments, seasonal variations, metal speciation, sequential extraction, 229
- Selenium, copper, zinc, food, daily intake, Africa, 49
- Sequential extraction, Yamuna sediments, sediment characteristics, seasonal variations, metal speciation, 229
- Sheep, caesium, ingestion, milk, soil, 243
- Sheep, radiocaesium, transfer coefficient, transport model, 1
- Sheep milk, soil ingestion, trace element transport, radiocaesium contamination, transfer coefficient, 13
- Sidestream cigarette smoke, polycyclic aromatic hydrocarbons, mainstream cigarette smoke, 101
- Sister chromatid exchange, hepatocytes, effluent water, 111
- Socio-economic status, climatic conditions, relative costs, solid waste characteristics and management, Agra city, 143

- Soil, caesium, Chernobyl, modelling, strontium, 251
- Soil, caesium, ingestion, milk, sheep, 243
- Soil ingestion, trace element transport, radio-caesium contamination, sheep milk, transfer coefficient, 13
- Solid waste characteristics and management, climatic conditions, socio-economic status, relative costs, Agra city, 143
- Speciation analysis, organotin, GG-AAS, GC-AED, harbour water, 279
- Strontium, caesium, Chernobyl, modelling, soil, 251
- Sulfate aerosols, residence time, ambient aerosols, 25
- Swine, meat, toxic metals, trace metals, 193
- Teeth, lead, dentine, age, gasoline, 135
- Toxic metals, cattle, bovine, meat, trace metals, 177
- Toxic metals, respirable dust, welder mist, atomic absorption spectrometry, 93
- Toxic metals, swine, meat, trace metals, 193
- Trace element transport, soil ingestion, radio-caesium contamination, sheep milk, transfer coefficient, 13
- Trace metals, cattle, bovine, meat, toxic metals, 177
- Trace metals, swine, meat, toxic metals, 193
- Transfer coefficient, radio-caesium, sheep, transport model, 1
- Transfer coefficient, soil ingestion, trace element transport, radio-caesium contamination, sheep milk, 13
- Transport model, radio-caesium, transfer coefficient, sheep, 1
- Unsaturated soil, atrozine, biodegradation, hydrodynamic parameters, microbial distribution, pentachlorophenol, 121
- Urinary mercury, dental amalgam fillings, fish eating habits, school children, multiple regression analysis, 213
- Welder mist, toxic metals, respirable dust, atomic absorption spectrometry, 93
- Yamuna sediments, sediment characteristics, seasonal variations, metal speciation, sequential extraction, 229
- Zinc, copper, selenium, food, daily intake, Africa, 49
